About the Company: Thai Carpet Factory

We are carpet factories (from Thailand) for contract business. In addition, we take pride in developing new techniques for carpets rather than just manufacturing carpets. We could surely assist your design team with contract carpets for prestigious projects that you are undertaking. Our factory is in Bangkok and produces different quality. We assure you about our competency and efficiency. As a matter of fact, we have installed carpets successfully in various countries for both the hospitality, commercial, and residential markets.

Some of our prestigious projects in Thailand and overseas are:

- Bayan Palace, kuwait
- Saif Palace, kuwait
- Sultan Qaboos Mosques (18 Sites), oman

Bangkok Marriott Marquis Queen's Park

Bangkok Marriott Marquis Queen's Park

Our carpet is typically made from superior quality swinwarded wool. Worsted wool is obtained from special breeds of longhair sheep. These long hairs are used to produce a smoother, higher quality yarn.

PLY : this is the number of single strands of spun yarn twisted together to form the finished yarn. Standard cut pile uses a very fine yarn that gives a more durable smooth, velvet finish. A coarser, rubberier look can be obtained by using a high ply yarn.

PILE WEIGHT : This is the weight of the wool (yarn) used in one square yard of hand tufted carpet

PILE HEIGHT : The height of the pile yarn above the backing

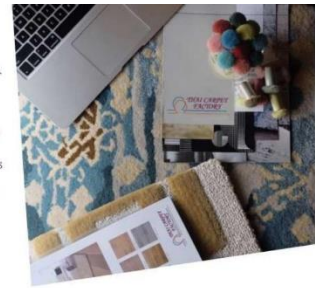

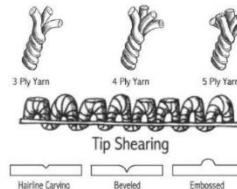

TOTAL WEIGHT : The combined weight of the yarns and all backing materials.

TEXTURE : Hand tufted carpet can be produced in cut pile, loop pile or a combination of the two.

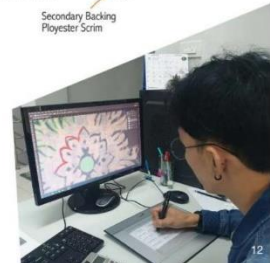

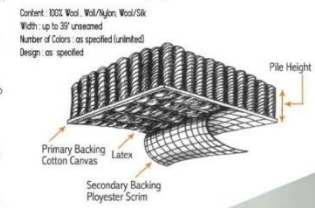

FINISHING : Once a carpet is produced a carving an tip shearing finishing techniques can be applied.

TIP SHEARING : This technique is used on loop pile areas of a carpet, tip shearing randomly shaves off top portions of the loop exposing tip fibers. The fiber tips reflect less than the loops thereby making them a shade darker. This adds color tones and depth to the look of a carpet.

CARVING : It can be very shallow (hairline) or deep assing dimension and definition to a carpet

Backing System.

1 FAST DELIVERY
DESIGN > SAMPLE > PRODUCTION
(MAX. DELIVERY IN 3 days/ 30 days)

3 HIGHLY EFFICIENT TEAM WITH 20 YEARS

WITH THTC

We design your place timely
with elegance, Eco-Friendly
and commitment

No Minimums : Order what you need, when you need it. Any Quantity, anysize, anysize, any time. If it is possible in your mind, it is possible with us. Thai Carpet offers a revolutionary break through in product, technology, and service

Our carpet resolves the conflicts between time, cost and creative choice that hamper project after project. By giving you the freedom to create custom color palettes from a selection of over 400 colors at no extra charge ; by letting your request custom colored mock ups and production orders if virtually any size, with no minimum ; and by eliminating long lead times that keep people from getting what they want it. Thai Carpet makes a whole new range of service and creativity possible.
